

# THE AUDE SHOWCASE 2024

**AUDE**

The AUDE Showcase

*SHOWCASE*

A brand new event highlighting the work of AUDE's special interest groups  
Join us at the University of Nottingham on 2 and 3 September

# THE AUDE SHOWCASE 2024

It's great to be able to introduce those organisations with which we have a long-term working relationship and to new organisations who have never attended an AUDE event to the **AUDE Showcase**, a brand new concept event for the association in which we will be highlighting the huge amount of great work done by our special interest groups. The Showcase is being held at the University of Nottingham's East Midlands Conference Centre on 3 September.

The growth of our special interest groups has been one of the many successes for the AUDE community in recent years, and we now have specialist groups in fields including sustainability, capital, estates management, space management, BIM, EDI and more.

The Showcase will give you an opportunity to talk to members about their latest work and newest projects. The focus of the event is on the operational rather than the strategic and will be an opportunity to showcase your work to those on-the-ground managers in HE estates that keep the show on the road.

We are interested to know about the products and services you have to demonstrate to this operational audience. This will be an event where you can grow your own network of practitioners in your field, tap into the latest discussions, and, we hope, find out how to get involved with them.

# THE AUDE SHOWCASE 2024

We really hope and expect the event to grow and become a standard part of the AUDE calendar in future years. In its first year however we are keeping the event at a level where we can learn and judge feedback. We hope to attract 150 delegates from university estates and facilities teams across the UK, and we will be running a small table-based exhibition at the event, which you are invited to take part in.

Every AUDE member is welcome. The focus of the event being on broadening members' practitioner networks this is the development event for those AUDE members managing projects in any of these specialist fields. The Showcase will be an event where you can finally put a face to a name and connect with others working in your specialism, to mutual benefit. Table-top exhibitions, open group meetings, thought-provoking speakers and more!

Whether you have a long standing relationship with AUDE or you've never shown your products and services at one of our events before - you are welcome to register your interest and apply. We really look forward to seeing you.
